Builders License # BC686226

We created a 3 season porch with ample natural light featuring Anderson 400 series windows and patio door. Included a gas fireplace with a stone surround and used a pine shiplap for the interior finish. We resurfaced the existing deck with Trex decking.

Project Goals:

1. Add a 3 season porch.
2. Incorporate as many windows as possible.
3. Add a gas fireplace with stone surround.
4. Resurface existing deck with Trex decking.
