This once-empty basement was transformed into a luxurious entertainment space that's simply unreal. Dual staircases lead you to a light-filled family room anchored by an 8 ½ ft fireplace on a chevron-patterned shiplap wall. A custom bar with display cabinets and seating for eight is adjacent to a 420 bottle, glass-walled wine cellar and powder room. There's even a 150" screen stadium seating theater and game room. For extended stays, guest can relax in a bedroom retreat with on-suite bathroom.
